Invented for life

Freestanding Appliances

2018

Who are Bosch?

"I have always acted according to the principle that it is better to lose money than trust. The integrity of my promises, the belief in the value of my products and in my word of honour have always had a higher priority to me than a transitory profit."

Robert Bosch, 1921

For over 125 years, the Bosch name has been synonymous with engineering excellence. Our home appliances are renowned for their quality, reliability and performance which derives from our inherent, unflagging commitment and the painstaking thoroughness with which every unit is made. As you would expect from Bosch, there are no gimmicks or frills with our products – just pure, clean lines and beautiful, functional simplicity that will enhance any kitchen.

The values that shaped Robert Bosch's vision for his new company in 1886 are the same principles that guide the business today; never lose the trust of your customers, look after your staff and partners and change things for the better. It's what has kept Bosch at the forefront of the home appliance industry and what will keep it there in the future.

Looking for help? You'll find it here.

For help with your home appliance, trust Bosch Customer Service.

Arrange an engineer visit.

Our appliances are manufactured to the highest standards, but if you do need a visit from an engineer we are here to help. We have teams of locally based engineers around the country – employed and trained by Bosch*. This gives them unrivalled expertise and knowledge of our appliances. We repair appliances both in and out of guarantee. All repairs are analysed in advance by a technical team so that the parts likely to be needed to complete the repair are sent to the engineer's van the night before the visit.

To arrange an engineer visit to your home please call:

0344 892 8979

Lines are open 24 hours.

Calls are charged at the basic rate, please check with your telephone service provider for exact charges.

You can also arrange an engineer visit online: **bosch-home.co.uk/customer-service/repair-service/book-engineer-online**

Product advice.

If you need help using programmes or features, or need assistance selecting a new Bosch appliance from our current range, our product advice team can help.

You can call us on

0344 892 8979

or visit: **bosch-home.co.uk** for frequently asked questions and helpful videos.

Register my appliance

We advise that you register your appliances so that we can contact you about any product updates. Visit registermyappliance.org.uk for more information.

You can also call Bosch directly to register your appliance on 0344 892 8979 (option 5). Please call us within 28 days of purchase to discuss the full range of options for extending your warranty.

Visit the Bosch online store.

Find a comprehensive selection of accessories to help you get the most out of your appliance, along with our full range of replacement spare parts and cleaning and care products at the Bosch online store.

You can also purchase Tassimo hot drinks machines, vacuum cleaners, irons, steam stations, kettles, toasters and food preparation appliances directly from us online.

You can call us on

0344 892 8979

or visit: **bosch-home.co.uk/store**

Accessories.

Many appliances can be enhanced with optional extras, such as telescopic rails for ovens or special cookware for hobs.

When buying a Bosch home appliance, you know you are purchasing a quality, reliable product. However many appliances are used daily, so need cleaning and maintaining to keep them looking great and operating at peak performance.

Our cleaning and care products have been thoroughly tested and approved for safe and effective use on your Bosch home appliance.

Replacement spare parts.

We keep in stock a comprehensive range of replacement spare parts for our appliances for up to ten years. All our parts are original spare parts, not copies.

High quality service.

Bosch home appliances are renowned for their quality and we believe that our customers deserve exceptional customer service. You can contact us seven days a week for assistance.

Calls will be answered **Monday to Friday 8am to 8pm, Saturday 9am to 5pm and Sunday 9am to 4pm.**

*In some areas we may use an approved service partner. The process may vary for repairs carried out by our service partners.

Your life at home just got even easier.

From controlling your Home Connect Serie 8 oven with your voice using Amazon Alexa, to never running out of dishwasher tablets again, thanks to the Amazon Dash Replenishment Service*. Smart appliances mean less things to think about, more time to spend on something else. With Bosch Home Appliances featuring Home Connect, your home is ready for the future today.

From first installation to regular operation and maintenance, Bosch appliances with Home Connect are designed to save you time and effort. The connected appliances can be monitored and operated remotely via your smart device assisting you in achieving perfect results. Bosch appliances with Home Connect allow you to perceive a new quality of interaction by experiencing a reliable and secure wireless connection to the appliance on all your smart devices.

Introducing the Bosch laundry range.

Energy- and water-saving technologies across our latest laundry appliances give you peace of mind when washing and drying your clothes. To help you choose the right appliance, we have divided them into three categories.

Serie 8 +++

Perfection in every detail, our **Serie 8** range of laundry appliances stands out from the crowd with superior quality, results and first-class design. Discover cutting-edge features and extras such as **i-DOS** automatic dosing in our washing machines and **ActiveOxygen™** for hygienic washing at low temperatures. Monitor and control your wash remotely with our **Home Connect** models, developed to give you complete control over your laundry.

Serie 6 ++

Our **Serie 6** models strive for sustainability and appreciate the active lifestyle of you and your family. Appliances in this range offer you real benefits and energy-efficient features combined with timeless design. **i-DOS** doses each load with millilitre precision, which not only delivers outstanding results but a host of savings. While **Night Wash** allows you to take advantage of evening tariffs and won't disturb you or the neighbors.

Serie 4 +

Easy to operate with family life in mind, our **Serie 4** range truly understands your requirements. Practical and straightforward to use, these appliances combine easy operation with stylish design. Now experience the same quiet and energy-efficient wash cycles as our premium models with **EcoSilence Drive™**.

Explore more at **www.bosch-home.co.uk**

Model shown: WAT286H0GB

Everything's just right with i-DOS.

Too much detergent or too little can lead to poor washing results. i-DOS automatically senses exactly the right amount of detergent and water to use, as well as the correct temperature, whatever your load.

Too much? Too little? Just right with i-DOS.

Once activated, the i-DOS system measures the detergent automatically, to the nearest millilitre. Sensors inside the washing machine detect the type of fabric, the load volume in the drum and the degree of soiling, and adjusts the detergent to the optimum dose accordingly. This way, you'll achieve the best results for your clothes, whilst **saving detergent and water.**

Too much.

Using too much detergent – even by a little – leads to **significantly higher** water and energy consumption when washing. Visible detergent residues can be left on clothing, which can trigger skin irritation and allergies.

Too little.

Using too little detergent can lead to **poorer washing results.** Stains won't be completely removed and could be left on clothes permanently. Insufficient detergent can also result in discolouration and unpleasant odours.

Save energy, quietly and economically.

Hygienically clean at the touch of a button.

We've developed **ActiveOxygen™** to take special care of your favourite clothes – hygienically. This clever system cleans your most delicate fabrics at low washing temperatures, protecting their colour while eliminating 99.99% of the bacteria and germs found in clothes, without the use of any chemical additives.

And for clothes that are essentially clean but just need a freshen up, choose **ActiveOxygen™ Refresh**. This 45 minute programme is even suitable for highly delicate fabrics, saving you a trip to the dry cleaners.

Save time. Save energy. With VarioPerfect™ you decide.

The battle against rising average energy and water bills* starts here with **VarioPerfect™** technology on all our freestanding washing machines.

Get full loads clean in just one hour** by selecting **SpeedPerfect** or select **EcoPerfect** and laundry comes out brilliantly clean using up to 66% less energy.***

Never miss an item again. Reload by Bosch.

For dropped socks, mistaken items with your whites or forgotten clothes, Reload function on all Bosch washing machines allows you to add clothing of any size to your washes.

Simply pause the cycle and the machine will automatically adjust the water level to allow you to open the door. Reload your items and restart the wash.

Enjoy the quiet life.

Our latest washing machines with **EcoSilence Drive™** generate a noise level of just 47 decibels – that's quieter than the sound of the sea at 55 decibels. We've also created **AntiVibration** technology that increases stability and reduces vibrations to cut down noise. And our special **Night Wash** programme reduces the high spin speed so you can do your washing while everyone is sleeping.

* Infrastructure investment: the impact on consumer bills. National Audit Offi ce Press Release, 13 November 2013.

** Compared to just over two and a half hours on Easycare 40°C wash programme.

*** Compared to an EU label standard cotton 60°C programme.

Introducing the Bosch dishwasher range.

All our dishwashers offer a range of advanced technologies as standard and additional options across the range to suit your individual requirements.

To help you choose the right Bosch dishwasher we have divided them into the four ranges below.

Serie 8 +++

Our **Serie 8** range combines cutting-edge design and advanced technologies including our Home Connect feature, for optimum cleaning performance. The **A+++** energy efficiency rating of this range is complemented by our **PerfectDry** function, where moisture is absorbed before being released as hot air for energy-efficient drying. **VarioFlex Pro** basket system offers additional storage and flexible loading solutions.

Serie 6 ++

Our **Serie 6** range comes packed with technology, from energy- and water-saving modes to quick washes for when time is of a premium. This range contains a **PerfectDry** model offering excellent drying results and also our quietest model that can operate as low as 36dB.

Serie 4 +

Our **Serie 4** models offer great value for money but do not compromise on Bosch build quality. They combine advanced energy- and resource-saving features and in addition offer **VarioFlex** baskets with foldable racks in the lower basket.

Serie 2

Our **Serie 2** dishwasher range offers you classic design with easy operation. This is the optimal solution for anyone who wants a reliable appliance to suit their individual requirements.

Model shown: SMS88TW06G

Explore more at **www.bosch-home.co.uk**

Finally, a dishwasher that dries as perfectly as it cleans, even on plastics.

PerfectDry

A clever function that saves energy by using less electricity to dry everything to perfection. And we do mean everything – plates, pans, glasses and all plastic items. Your lunchboxes and containers will be completely clean and perfectly dry, so you'll never have to pick up a tea towel to finish the job again.

The technology behind PerfectDry, unique to Bosch, is called Zeolith® – a process applied to most cycles that uses minerals that heat up when they come into contact with water. The warm air is then distributed evenly over the load.

Technology to save you time.

Our **VarioSpeed Plus** option reduces programme times without compromising on quality. So you still get hygienically clean and dry dishes but in about a third of the time of the standard programme – ideal for busy households and entertaining.

DosageAssist.

Get the most out of your detergent with DosageAssist; a small area at the front of the top basket that catches the tablet when it's released during the cycle. It controls how the tablet is dissolved for optimum performance.

The key to flexibility.

The **VarioFlex Pro** rack system offers maximum flexibility and allows the dishwasher to be adapted to any load that suits you, while still securing everything in place. The VarioDrawer is an additional loading level, ideal for cutlery and smaller items, freeing up space in the rest of the dishwasher. The adjustable 3-stage **Rackmatic™** system allows the upper basket to be moved up and down to fit more in the top or bottom basket as required.

Machine Care.

Your dishwasher will help look after itself with this smart self cleaning function. Optimising the water and energy consumption, it works on a short run time of 80-90 minutes at high temperatures. It cleans and eliminates lime and grease deposits inside the tub and waste pipes and works with a standard machine-care detergent. It will even remind you to run the programme every 30 cycles.

More drying power when you need it.

Want your dishes extra dry? No problem. This function gives you even more drying power when you need it. Just choose the **Extra Dry** option and more heat will be created to enhance your load's drying cycle.

60cm dishwashers

Serie 6 ++

SMS67MW00G

Energy A+++ | 14 | Water 9.5L

A dishwasher that dries as perfectly as it cleans.

Our **PerfectDry** dishwasher uses energy-saving minerals that heat up when they come into contact with moisture, creating perfectly dry cupboard-ready results, naturally.

Introducing the Bosch refrigeration range.

All our fridge freezers save you money and ensure optimum freshness thanks to their energy efficiency ratings, clever technology and storage systems.

To help you choose the right Bosch fridge freezer we have divided them into three ranges.

Serie 6 ++

State of the art technology, including our **Home Connect** feature in some models, ensures our **Serie 6** range combines energy-efficient performance with adaptable storage and superior food preservation. **VitaFresh plus** drawers store meat, fish and fruit & vegetables at a lower temperature & humidity, keeping them fresh and nutritious.

Serie 4 +

Our **Serie 4** models combine clever features and technology, including the Bosch build quality that offers flexible storage solutions with enough space for all your family shopping. All models include our **VitaFresh** freshness system which guarantees ideal storage conditions for your fresh food.

Serie 2

With energy efficiency an increasing priority in homes, the **Serie 2** refrigeration range is just as efficient as it is value for money.

vario style

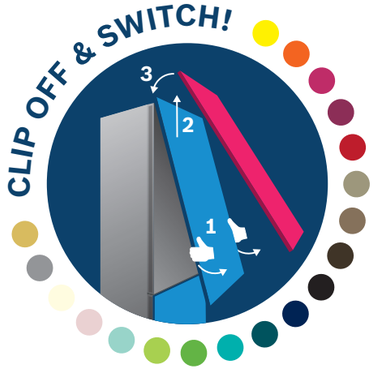
Designed to be redesigned.

Introducing the Vario Style fridge freezer with **Vita**fresh: the world's first fridge with exchangeable coloured fronts. Now you can easily restyle your kitchen to match your home.

Your kitchen is more than just a place to prepare your meals. It's the hub of your home whether you're enjoying a cozy family dinner or hosting a lively party. It's the central point in your home and your freestanding fridge is the highlight.

By combining style, superior quality and simplicity, the Vario Style fridge freezer allows you to make your kitchen unique and an expression of your individual personality and style.

The innovative Vario Style system is equipped with a clever combination of invisible hooks and magnets so you



Available in 19 colours.

can easily change the colour of your door. You don't need any specific tools or technical knowledge.

Within just 3 easy steps your kitchen style is transformed.

Lock in the freshness.

VitaFresh

With **VitaFresh**, you'll be able to store your fruit and vegetables at exactly 0°C to lock in the freshness. Also, with an adjustable humidity setting on the drawer, you'll be keeping your fresh food in a perfectly controlled environment.

You'll also find two drawers, one for fish and one for meat, with a temperature regulating slider which lets you lower the temperature up to 4°C lower than the rest of the fridge. **VitaFresh plus** models have the added benefit of a convenient push button for humidity control.

Introducing the Bosch small appliances.

Our award-winning range of appliances isn't just restricted to large models. We also design and engineer high quality vacuum cleaners, irons, steam generators, drinks machines, kettles, toasters, kitchen machines and other food preparation appliances.

Model shown: **BCS122GB** vacuum cleaner
MUM9GX5S21 kitchen machine

Making **life easy** through innovative technologies

Cordless. Charge less.

Introducing the new Bosch Unlimited cordless vacuum. With two batteries and quick charger, you have continuous run-time in the palm of your hand.

Introducing the multi-use cordless vacuum.

Continuous runtime*.

If you want to keep your home clean at all times, you need a device that is always at hand whenever you need it. The Unlimited provides continuous runtime, thanks to **exchangeable battery packs** and a quick charger (EHZUC181GB). One battery can be charged while the other battery is in use, so the device is always ready to go and never runs out of power. Second battery is included with BCS122GB or additional batteries can be purchased separately (BHZUB1830: 3 Ah battery).

DigitalSpin Motor.

The Unlimited also contains the latest motor technology: the **DigitalSpin Motor** with a long lifespan. It's perfectly calibrated aerodynamic blades rotate faster than a Formula One motor. This motor is compact, lightweight and high-performing.

*Under 60 minutes charge time with quick charger (EHZUC181GB). Compared to other manufacturers' communicated charge times of cordless sticks in the UK market.

Explore more at **www.bosch-home.co.uk**

Cleaning on all levels.

You no longer need different devices to clean different parts of your home. Now, you can effectively clean from floor to ceiling. The Unlimited comes with useful accessories (BCS122GB and BCS111GB only) that allow you to clean all kinds of flooring, such as tiles or hard floors, as well as all kinds of surfaces, such as stairs, tables, upholstery and even the ceiling. It is also perfect for vacuuming your car.

Power4All System.

Bosch battery technology ensures powerful performance across all our products. The exchangeable **Power4All System** only requires a single battery pack, which means complete flexibility when charging. The battery is part of our Power4All system so can be used in compatible power tools and lawn and garden products from Bosch.

Quick charger accessory.

Although cordless vacuum cleaners are very convenient, their batteries might not always last as long as you wish. The quick charger accessory (EHZUC181GB)* allows charging the exchangeable batteries of the Power4All System within 60 minutes and therefore extends the Unlimited's runtime.

*Available separately when not included with pack.

Unlimited

BCS122GB

Li-Ion Technology | 18V | Up to 60min runtime

Specifications

All accessories are dishwasher safe
Included accessories: 1 x spatula 1 x measuring cup 1 x deep fry sieve 1 x steaming basket 1 x spoon

Bosch makes it, easy.

Our multi-functional, award winning kitchen machines, food mixers and processors are packed with innovative, labour-saving technology so you can chop, blend, shred, mix and whisk your way more quickly through your food preparation task.

Make sense of mixing with OptiMUM.

Intuitive sensor technology and incredible versitility mean the OptiMUM easily takes care of all your mixing, weighing, chopping and blending.

Offering everything-in-one kitchen machine, making cooking and baking a whole lot easier for you. Including a huge variety of professional accessories for all your cooking and baking ideas, this is the only kitchen machine you will ever need to bring your recipes to life.

Perfect results at the touch of a button.

Another smart feature of the OptiMUM are its highly sensitive sensors that measure the consistency of the ingredients and stop automatically at exactly the right time. So, you'll always have perfect results at the touch of a button – whether it's dough, whipped cream or egg whites.
And rather than keeping an eye on the machine, you'll be free to do something else.

3D Mixing.

The mixing tool is rotated in three different directions, this ensures all the ingredients are perfectly mixed and nothing remains stuck to the sides of the bowl, eliminating the need to use a spatula as well.

The large stainless steel mixing bowl with 5.5L capacity and two handles further guarantees ease of use.

Integrated scales.

The OptiMUM makes life even easier thanks to the built-in scales that accurately weigh all your ingredients as you add them to the bowl, saving you cleaning additional bowls.

Food preparation

OptiMUM kitchen machine

Stainless steel bowl with handles

Perfectly mixed ingredients.

Your ingredients will be perfectly mixed thanks to the 3D mixing system. Simply add your ingredients to the bowl and let the mixer do the work for you. The unique stirring movement is designed to ensure that all of your ingredients are thoroughly mixed, and nothing is left stuck to the side of the bowl.

Total Steam Genius.

Introducing the new generation of Bosch steam generators, making it easy to help you choose the right iron for your needs and lifestyle.

VarioComfort.

Glide your way to perfection. Our **VarioComfort** system is easy to use and has a programme for all your fabrics. From silk and synthetics to denim and linen – you'll get perfect results every time. It applies a constant high-pressure steam allowing you to achieve precision ironing faster and easier than ever before. With flexible settings to suit all fabrics, a unique hygiene programme on selected models and a smooth-gliding and scratch-resistant soleplate, you'll get perfect results every time. Plus the new SecureLock system makes it safer to carry and store your iron.

EasyComfort.

Iron all fabrics on one setting. Genius. Our **EasyComfort** sytem with i-Temp allows you to iron all fabrics on one setting making ironing a whole lot easier. There's no need to pre-sort clothes or set the temperature before you begin so you can relax knowing your iron is safe on all fabrics. Also featuring a smooth gliding and scratch-resistant soleplate along with a 1.5 litre water tank means you'll also power through your laundry faster and easier than ever before. All of which gives you more free time.

One setting for all your ironing.

i-Temp uses one optimum temperature to suit all fabrics so now there's no need to pre-sort the laundry. With **i-Temp** you can save time and carefully look after your clothes. **Available on both the VarioComfort and EasyComfort range.**

Serie 8 +++

Our **Serie 8** range combines premium design and technology to deliver optimum ironing performance. Featuring our **VarioComfort** system, there is a programme available to choose from whatever the fabric. From platinum finish controls to removable, large capacity water tanks, our irons glide through the ironing, making light work of even the largest laundry loads.

Serie 6 ++

Our **Serie 6** range comes packed with helpful features. From **SecureLock** making it safer to carry and store your iron to **EasyComfort,** allowing you the convenience of being able to iron all fabrics on one setting. Perfect for all your everyday ironing requirements.

Steam generator irons

Serie 8 +++

TDS8040GB

Power 2400W | Steam Shot 500g

Specifications
VarioComfort
CeraniumGlissée ceramic soleplate
Up to 7 bar pressure
Ultimate 500g steam shot
120g/min steam output
1.8 litre removable tank
Hygiene programme for fully sanitising clothing
Calc'nClean Perfect – a highly efficient cleaning system

Calc'nClean Perfect is a highly efficient cleaning system – a first for both the steam generator and iron. The fully-automatic cleaning programme for the iron also removes any limescale particles.

Remove 99.9% of microbes* from laundry.

The ProHygienic special programme eliminates 99.9% of microbes in fabrics, without chemicals, thanks to its innovative HygienicSteam technology. Deep steam penetration kills germs, even on thicker textiles, whilst the soleplate maintains a constant temperature for microbe-free laundry every time.

Making **life easy** through innovative technologies

● = Yes - = No

All models comply with COMMISSION REGULATION (EC) No 1275/2008 with regard to ecodesign requirements for standby and off mode electric power consumption.
Cottons 60+ecoPerfect and Cottons 40/60+ecoPerfect are the standard washing programmes to which the information in the label relates. These programmes are suitable to clean normally soiled cotton laundry and are the most efficient programmes in terms of combined energy and water consumption. Annual energy and water consumption based on 220 standard wash cycles.

● = Yes - = No

The programme cotton cupboard dry used at full and partial loads is the standard drying programme to which the information on the energy label refers.
This is the most efficient programme in terms of energy consumption for cotton.
Annual consumption is based on 160 drying cycles.
Data valid in this table as of April 2018. Subject to modification without prior notice.

Key to accessories: SGZ1010: AquaStop extension, **SMZ5300:** Wine glass holder, **SMZ5001:** Bottle and small parts holders, **SMZ5002:** Silver polishing cassette, **SMZ5100:** Adjustable cutlery basket, **SPZ5100:** Vario cutlery basket, **SZ73100:** Cutlery basket

[1] Based on 280 standard cleaning cycles using cold water fill, including consumption of the standby mode.
[2] The consumption per cleaning cycle of the "Eco 50°" programme using cold water fill.
[3] We would recommend our dishwashers are connected to the mains water supply where possible. However, they may also be connected to an external water softener as long as the water softener produces softened water of less than 1.1 mmo/litre (7.0°e) and the water softener in the appliance is turned off. Please contact product advice for further information.

Water pressure required: 0.5-10 Bar. Flow rate: 10 litres per minute. Inlet valve connected directly to ¾" screwed joint.

All models comply with COMMISSION REGULATION (EC) No 1275/2008 with regard to ecodesign requirements for standby and off mode electric power consumption.

Data valid in this table as of April 2018. Subject to modification without prior notice.
